| 2. Hazard(s) identification  |   |
| Classification   |   |

Aspiration hazard

Category 1

Hazards not otherwise classified (HNOC) Not applicable

# Label elements

Danger

**Revision Number** 2

## Hazard statements

## Precautionary Statements - Response

IF SWALLOWED: Immediately call a POISON CENTER or doctor Do NOT induce vomiting

# Precautionary Statements - Storage

Store locked up

## **Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

#### Other information

No information available.

# 3. Composition/information on ingredients

## Substance

Not applicable.

## Mixture

| Chemical name                 | CAS No.   | Weight-%  | Trade secret |
|-------------------------------|-----------|-----------|--------------|
| White mineral oil (petroleum) | 8042-47-5 | 80 - 100% | *            |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

# 4. First-aid measures

## **Description of first aid measures**

| General advice | Immediate medical attention is required. Show this safety data sheet to the doctor in attendance.   |
|----------------|---|
| Inhalation     | Aspiration into lungs can produce severe lung damage. If breathing has stopped, give artificial respiration. Get medical attention immediately. Remove to fresh air. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. If breathing is difficult, (trained personnel should) give oxygen. Get immediate medical attention. Delayed pulmonary edema may occur. |
| Eye contact    | Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.  |
| Skin contact   | Wash skin with soap and water.  |

| Ingestion  | ASPIRATION HAZARD IF SWALLOWED - CAN ENTER LUNGS AND CAUSE DAMAGE.<br>Do NOT induce vomiting. If vomiting occurs spontaneously, keep head below hips to<br>prevent aspiration. Rinse mouth. Never give anything by mouth to an unconscious person.<br>Get immediate medical attention. |  |  |
|--|--|--|--|
| Self-protection of the first aider   | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Use personal protective equipment as required.      |  |  |
| Most important symptoms and effects, both acute and delayed                |  |  |  |
| Symptoms   | Difficulty in breathing. Coughing and/ or wheezing. Dizziness.   |  |  |
| Indication of any immediate medical attention and special treatment needed |  |  |  |
| Note to physicians   | Because of the danger of aspiration, emesis or gastric lavage should not be employed unless the risk is justified by the presence of additional toxic substances.  |  |  |

# 5. Fire-fighting measures

| Suitable Extinguishing Media<br>Large Fire                     | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.<br>CAUTION: Use of water spray when fighting fire may be inefficient. |  |
|--|---|--|
| Unsuitable extinguishing media                                 | Do not scatter spilled material with high pressure water streams.   |  |
| Specific hazards arising from the chemical                     | No information available.   |  |
| Explosion data<br>Sensitivity to mechanical impact None.       |   |  |
| Sensitivity to static discharge                                | None.   |  |
| Special protective equipment and precautions for fire-fighters | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.<br>Use personal protection equipment.   |  |

# 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures |   |  |  |
|---|---|--|--|
| Personal precautions  | Ensure adequate ventilation. Use personal protective equipment as required. |  |  |
| Other information   | Refer to protective measures listed in Sections 7 and 8.                    |  |  |
| Methods and material for containment and cleaning up                |   |  |  |
| Methods for containment   | Prevent further leakage or spillage if safe to do so.                       |  |  |
| Methods for cleaning up   | Pick up and transfer to properly labeled containers.                        |  |  |

# 7. Handling and storage

| Precautions for safe handling                                |   |  |
|--|---|--|
| Advice on safe handling                                      | Handle in accordance with good industrial hygiene and safety practice.  |  |
| Conditions for safe storage, including any incompatibilities |   |  |
| Storage Conditions   | Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Keep out of the reach of children. Store away from other materials. |  |

# 8. Exposure controls/personal protection

# Control parameters This product, as supplied, does not contain any hazardous materials with occupational **Exposure Limits** exposure limits established by the region specific regulatory bodies. Appropriate engineering controls **Engineering controls** Showers Eyewash stations Ventilation systems. Individual protection measures, such as personal protective equipment Eye/face protection If splashes are likely to occur, wear safety glasses with side-shields. Skin and body protection No special protective equipment required. **Respiratory protection** No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required. **General hygiene considerations** Handle in accordance with good industrial hygiene and safety practice.

# 9. Physical and chemical properties

| Information on basic physical and chemical properties |                              |                            |  |
|---|------------------------------|----------------------------|--|
| Physical state  | Liquid                       |                            |  |
| Appearance  | Liquid                       |                            |  |
| Color   | Colourless                   |                            |  |
| Odor  | Mild                         |                            |  |
| Odor threshold  | No information available     |                            |  |
|   |                              |                            |  |
| Property_   | Values                       | Remarks • Method           |  |
| pH  | No data available            | None known                 |  |
| Melting point / freezing point                        | No data available            | None known                 |  |
| Initial boiling point and boiling rang                | <b>e</b> > 288 °C / 550.4 °F | >288°C (>550.4°F)          |  |

| 10. Stability and reactivity  |  |  |
| Reactivity  | No information available.  |  |

| Reactivity                         | No mormation available.                   |
|------------------------------------|---|
| Chemical stability                 | Stable under normal conditions.           |
| Possibility of hazardous reactions | None under normal processing.             |
| Conditions to avoid                | None known based on information supplied. |
| Incompatible materials             | None known based on information supplied. |
|                                    |   |

Hazardous decomposition products None known based on information supplied.

# 11. Toxicological information

Information on likely routes of exposure

| Inhalation   | Specific test data for the substance or mixture is not available. Aspiration into lungs can produce severe lung damage. May cause pulmonary edema. Pulmonary edema can be fatal. May cause irritation of respiratory tract.                      |  |
|--|--|--|
| Eye contact  | Specific test data for the substance or mixture is not available. May cause irritation.  |  |
| Skin contact   | Repeated exposure may cause skin dryness or cracking.  |  |
| Ingestion  | Specific test data for the substance or mixture is not available. Potential for aspiration if swallowed. May cause lung damage if swallowed. Aspiration may cause pulmonary edema and pneumonitis. May be fatal if swallowed and enters airways. |  |
| Symptoms related to the physical, chemical and toxicological characteristics |  |  |
| Symptoms   | Difficulty in breathing. Coughing and/ or wheezing. Dizziness.   |  |
| Acute toxicity   |  |  |

Numerical measures of toxicity

# The following values are calculated based on chapter 3.1 of the GHS document

| ATEmix (oral)                 | 5,618.00 mg | j/kg  |
|-------------------------------|-------------|-------|
| ATEmix (dermal)               | 99,999.00 n | ng/kg |
| ATEmix (inhalation-gas)       | 99,999.00 p | pm    |
| ATEmix (inhalation-dust/mist) | 99,999.00 n | ng/l  |
| ATEmix (inhalation-vapor)     | 99,999.00 n | ng/l  |

## **Component Information**

| Chemical name                 | Oral LD50          | Dermal LD50 | Inhalation LC50 |
|-------------------------------|--------------------|-------------|-----------------|
| White mineral oil (petroleum) | > 5000 mg/kg (Rat) | -           | -               |
| 8042-47-5                     |                    |             |                 |

# Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation         | No information available.                     |
|-----------------------------------|---|
| Serious eye damage/eye irritation | No information available.                     |
| Respiratory or skin sensitization | No information available.                     |
| Germ cell mutagenicity            | No information available.                     |
| Carcinogenicity                   | No information available.                     |
| Reproductive toxicity             | No information available.                     |
| STOT - single exposure            | No information available.                     |
| STOT - repeated exposure          | No information available.                     |
| Aspiration hazard                 | May be fatal if swallowed and enters airways. |
| Other adverse effects             | No information available.                     |
| Interactive effects               | No information available.                     |

# 12. Ecological information

# Ecotoxicity

| Chemical name                                 | Algae/aquatic plants | Fish   | Toxicity to<br>microorganisms | Crustacea |
|---|----------------------|--|-------------------------------|-----------|

# US Federal Regulations

## <u>SARA 313</u>

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

## SARA 311/312 Hazard Categories

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

#### CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

## **CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

# US State Regulations

## **California Proposition 65**

This product does not contain any Proposition 65 chemicals.

# U.S. State Right-to-Know Regulations

This product does not contain any substances regulated under applicable state right-to-know regulations

## U.S. EPA Label Information

## EPA Pesticide Registration Number Not applicable
